**Tips for Registering Student-Athletes**
**Summer Orientation 2017**

**Advising Note:** All student-athletes are assigned faculty or professional academic advisors and we encourage them to work closely with these advisors throughout their college careers, which begins with orientation. As Athletics Academic Advisors, within the Office of Student-Athlete Development (OSAD), we will work with the student-athletes after they meet with the faculty or major advisors during orientation to ensure that they are in compliance with NCAA rules and regulations.

**Mandatory Registration:** All freshmen recruited student-athletes should be enrolled in a section of Strategies for Academic Success. They can select any of the sections listed below and will need our signature to be officially registered for this course.

Note: A student-athlete may not have a scholarship but may still be considered “recruited.” We will have lists of recruited student-athletes for each sport and will follow up with these students. If you have any questions please let us know.

**Course Load:** In general, it is best to have student-athletes registered for 15 credits each semester to keep them on track for graduation and NCAA eligibility.

**Fall 2017 Practice Schedules and Registration Guidelines Handout** (please see additional handout): This handout outlines the general practice times for each team as well as the ideal time frame for student-athletes to take classes. We understand that it may be difficult to adhere to these guidelines with limited class availability in some departments/majors; however, it is best for the student to stick to these guidelines whenever possible. Please let us know if you have any questions.

If you have any questions or concerns regarding student athletes during the orientation process, please feel free to contact either one of us anytime.
