

# BUSINESS TEACHING

University of Northern Iowa College of Business Administration

<https://business.uni.edu/undergraduate/business-teaching>

## ABOUT THE MAJOR

Business teachers play an important role in the development of organizational pioneers. They introduce future executives to the world of business and give them the foundation it takes to be successful. A degree in business teaching prepares students for success in the classroom by giving them the experience to teach introductory and general business classes to middle school, secondary and post-secondary students. Business teachers help their students understand economic principles and their relation to business problems.

## SAMPLE COURSEWORK
