

PHILOSOPHY

University of Northern Iowa College of Humanities, Arts & Sciences

<https://philrel.uni.edu/>

ABOUT THE MAJOR

Philosophy is the study of the fundamental nature of knowledge, reality, and existence. In a broad sense, philosophy is an activity people undertake when they seek to understand fundamental truths about themselves, the world in which they live, and their relationships to the world and to each other. Those who study philosophy are perpetually engaged in asking, answering, and arguing for their answers to life's most basic questions.
